

MATERIAL SAFETY DATA SHEET

Section 1: Chemical Product and Company Identification

Product Name: URINE-AWAY™

Intended Use: Permanent resolution of pet urine odor and stains.

Emergency Spill, Leak, Fire Contact Information: CHEMTREC 1-800-424-9300

Manufactured for: Ceva Animal Health, LLC
8735 Rosehill Road
Lenexa, KS 66215

Section 2: Handling and Storage

Handling: Eye protection recommended when working with large volumes. Use with adequate ventilation.

Fire and Explosion Protection: Not flammable.

Storage: Keep in original container, and store at room temperature. Keep out of reach of children. Keep away from food, drink, and animal feed.

Section 3: Hazards Identification

WARNING!

Flammable materials

Not for human use.

Avoid exposure to heat and open flame.

Physical State: Liquid

Color: Clear to Light Yellow

Precautionary Statements:

- If large amounts are ingested, seek medical advice and show the container label.
- Keep only in original container, and store at room temperature.
- Keep out of reach of children.
- Keep away from food, drink, and animal feed.

No acute and/or chronic health hazards. No significant adverse reactions have been reported.

Potential Health Effects:

- **Inhalation:** Breathing small amounts of this material is not likely to be harmful. May cause irritation of the respiratory tract with high mist concentrations.
- **Eye Contact:** May cause temporary limited eye irritation.
- **Ingestion:** Ingesting small amounts of this material is not likely to be harmful.

--

Section 4: First Aid Measures

- **Inhalation:** Move to fresh air. Treat symptomatically. Seek medical attention if symptoms persist.
- **Eye Contact:** Immediately flush with water. Seek medical attention if symptoms persist.
- **Skin Contact:** Flush skin with soap and water.
- **Ingestion:** Consult a physician.

Section 5: Fire-Fighting Measures

Extinguishing Media: Use carbon dioxide or other oil combatant types.

Unsuitable Extinguishing Media: None known

Special Fire-Fighting Procedures: None known

Unusual Fire and Explosion Hazards: None known

Hazardous Combustion Products: None known

Section 6: Accidental Release Measures:

Personal Protection: Eye protection is recommended when working with large volumes.

Spill Cleanup Methods:

Use an absorbent to soak up the product and place into container for disposal in accordance with Federal, State, and Local regulations for combustibles.

Section 7: Composition/Ingredient Information

Chemical Name	CAS- No.
Water	
Essential Oils (Plant Origin)	
Isopropyl Alcohol	67-63-0

OSHA Regulatory Status: Conforms to the RIFM and IFRA guidelines.

Section 8: Physical and Chemical Properties

Color: Clear to Light Yellow

Physical State: Liquid

Boiling Point: No data available

Flash Point: 230°F (TCC)

Freezing Point: No data available

Solubility in water: Completely Soluble

Section 9: Stability and Reactivity

Stability: Stable

Conditions to Avoid: Exposure to heat and open flame

Incompatible Materials: None known
Hazardous Decomposition Products: None known
Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

Section 10: Toxicological Information

Not a primary skin irritant and not toxic by oral ingestion or inhalation. A minor irritant when in direct contact with the eyes.

Section 11: Ecological Information

There is no data on the ecotoxicity of this product.

Section 12: Disposal Considerations:

General: This substance should be disposed of in accordance with local, state, and federal regulations for combustibles.

Disposal Method: Do not empty into drains. Store and dispose of this material and its container in a safe manner which will not contaminate water, food, or animal feed.

Container: Since emptied containers retain product residue, follow label warnings even after container is emptied.

Section 13: Transport Information

DOT: Not regulated

Section 14: Regulatory Information

Conforms to the RIFM and IFRA guidelines.

Section 15: Exposure Controls/Personal Protection

For industrial exposure: No occupational exposure limits established.

Engineering Controls: Good ventilation should be used (typically 10 air changes per hour). Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels to an acceptable condition.

Respiratory Protection: If engineering controls do not maintain airborne concentrations below an acceptable level, an approved respirator must be worn.

Personal Protective Equipment:

- **Eye Protection:** Wear safety glasses with side shields or goggles.

Hygiene Measures: Eyewash station
